

The purpose of UFO's is to teach the student all about this topic both scientifically and theologically. The student will learn about UFO's in the below areas so that he will be aware of any future deception regarding them:

- 1) We'll look at the 7 different types of "close encounters"
- 2) We'll look at the 2 different kinds of UFO groups: the naturalists/skeptics & the spiritualists
- 3) We'll take a brief look at the complete history of UFO sightings, starting in about 1600 B.C. and ending with the modern era, today.
- 4) We'll examine the physical anomalies of UFO's, such as:
 - A) defying physical laws
 - B) changing shapes in flight
 - C) being detected on film but not by sight & vice versa
 - D) flying into & out of the ground
 - E) the absence of "air friction" & "sonic booms"
 - F) If UFO's come from another planet
- 5) Are UFO's extra-terrestrial (from another planet) or inter-dimensional?
- 6) We'll examine the message of the UFO's & how it changed from the 1950's to the mid 1970's and from the mid 1970's thru today.
- 7) We'll examine alien abductions, how they happen, who they happen to, what they do when they abduct a person & how to stop them.
- 8) We'll look at the spiritual connection, what it is, where its coming from & how to evaluate it.
- 9) We'll discuss "Roswell" ...what it is & what it isn't.
